TERMS AND CONDITIONS

General Description of Services Offered

1. These Terms and Conditions and Rate Schedules govern Company services originating and terminating at points within Maine. Specific services and rates are described in the Rate Schedules.
2. The Company's intrastate service territory is the State of Maine. Company services are available 24 hours per day, 7 days a week.
3. Company services are available for both non-residential and residential customers.

Calculation of Rates

1. Rates for service are based on airline mileage between rate centers of the calling and called stations. The location of Rate Centers is based on information provided by Bell Operating Companies. Mileage is calculated using the Vertical and Horizontal (V&H) coordinate system from the National Exchange Carriers Association Tariff FCC No. 4.
2. The chargeable time of a call is timed and measured by the underlying carrier. Timing of calls begins when the call is answered at the called station. Different rates may apply depending on the time of day or day of the week the call is made. Calls originating in one time period and terminating in another time period will be billed according to the rate in effect during each portion of the call.
3. Pursuant to Title 35 A, 7302 of the Maine Public Utilities Statutes, Excel will automatically apply a 70% rate reduction for intrastate toll calls made from lines, or via credit cards assigned to lines, used for making calls from certified deaf, hard-of-hearing or speech-impaired persons who must rely on teletypewriters for residential telephone communications. To qualify for the reduction, a customer must submit an affidavit to Excel a form approved by the Commission, stating that due to a deafness, hearing impairment, or speech impairment, the customer or a member of the household must rely on a teletypewriter for telephone communications, and that the equipment is connected or acoustically coupled to his telephone. Upon request, this rate reduction will also be provided to any noncertified user making calls to a certified user, provided the noncertified user informs Excel of the relevant billed calls made during each billing period.

The service enables callers to place calls using Excel's service on a prepaid basis. Customers subscribe to the service by purchasing a prepaid card from an authorized Excel representative. Access to the service is available seven (7) days per week, twenty four (24) hours per day. Charges for telephone calls will be deducted from the Customer's prepaid account balance. Such charges may be deducted from the Customer's prepaid calling card balance. Prepaid calling cards are provided at the unit prices and fees set forth herein. Under some arrangements, a separate fee or unit value may also be imposed by the distributor of the card.

Calls placed using Prepaid Calling Card Service are charged against the card holder's balance at a rate of \$.29 per minute. 14. Excel Operator Services

The Company's Operator Services is available throughout the State of Maine. Callers access the Company's Operator Services by dialing 0+ a 10 digit telephone number, 00 or a Company-provided access code or other Company-authorized access method. Upon receipt of the call, the Company may verify the credit-worthiness of the designated billed party. When a payment method cannot be validated, or is unacceptable, callers may be required to select an alternative and acceptable means of payment. Total charges for use of this service include usage charges and an Operator Assistance Service Charge, as set forth below. An Operator Dialed Service Charge also applies to calls in which the caller has the capacity to dial the number, but has the operator dial instead. Usage charges are based upon the duration of a call, and are flat per minute based, 24 hours per day, 7 days per week, during all Time-of-Day Rate Periods. The Time-of-Day Rate Periods are defined as follows:

- Day Rates are applicable to calls placed Monday through Friday from 8:00 AM to, but not including, 5:00 PM.
- Evening Rates are applicable to calls placed Sunday through Friday from 5:00 PM to, but not including, 11:00 PM; and on Carrier Recognized Holidays, unless a lower rate would normally apply.
- Night/Weekend Rates are applicable to calls placed Sunday through Friday from 11:00 PM to, but not including, 8:00 AM the following day, and all day Saturday.

Chargeable time begins when the Company receives signaling to detect that the network connection between the calling station and the called station has been established. Chargeable time ends when either party "hangs up" thereby releasing the network connection. For collect calls, chargeable time begins when the called station accepts responsibility for payment of the charges associated with the call. All calls are measured and billed in one minute increments; fractional minutes of use are rounded up to the next full minute.

A Service Charge is applicable to Operator Station-to-Station (including Sent Paid, Sent Collect, Third Number Billed or Calling Card), Person-to-Person (including Sent Paid, Sent Collect, Third Number Billed or Calling Card) and for Busy Line Verifications and Busy Line Interruptions. These charge(s) are in addition to the initial period and additional period per minute usage charges applicable to each call. When a call is subject to more than one Service Charge, only the highest Service Charge applies, unless indicated otherwise herein. Operator Assistance Service Charges vary depending upon the billing option selected by the caller. The following call placement options are available:

The call may be billed as Sent Paid (calling party pays for the call), Sent Collect (called party pays for the call), or may be billed to a Third Party Number or Calling Card. Sent Collect and Third Number Billed calls may not be allowed in locations where the Company does not have billing arrangement availability. 14.1 Operator Assistance Service Charges and Surcharge Descriptions: (Continued)

A Service Charge is applied to all attempts to verify the condition of a customer line, busy talking, busy not talking (e.g., off hook), except attempts which are unsuccessful due to network equipment failure.
- d. Busy Line Interruption - refers to those instances where the Company operator will interrupt an ongoing conversation on a called station. A charge will apply each time the Company operator attempts the emergency interruption whether or not the interruption is successful. Once an operator has verified the line, and the called party has agreed to accept the interruption, the Customer is provided the option of completing an operator assisted call to the called station without hanging up or originating a separate call. Customers may accept or refuse the operator's offer to complete the call. Calls completed with the operator's assistance will be charged an additional Service Charge under Station-to-Station or Person-to-Person, as applicable. - e. Operator Dialed Surcharge - will apply to Station-to-Station and Person-to-Person calls when the Customer has the ability to dial all the digits necessary for call completion but dials instead "0", "00" or another Company-provided access code or other Company-authorized access method to reach a Company operator to have the operator place the call. However, the surcharge will not apply to: (1) calls which cannot be completed by the Customer due to equipment failure or trouble on the Company's network; and (2) calls placed by parties identified as handicapped and who cannot complete the calls due to the handicap.
